World jet stream shift ends Russia heatwave + Pakistan Superdeluges

• Solar-driven forecasts confirmed

• Could world wheat crisis have been averted?
• Will Russia & Pakistan be hit again next year?
• Is SatelliteGate the end of Global-Warming religion?

Long-range forecasts by Piers Corbyn using his Solar-magnetic and Lunar effects Technique correctly forecast the West Russia heatwave and correctly predicted when the Jet stream would undergo a dramatic world shift and end both the Russia heatwave & Pakistan SuperDeluges.

Russia heat ends as forecast

Piers said “We are very pleased with this result. I explained on Russia Today tv [link] that these events were driven by solar-magnetic lunar cycles which is why there were similar events around 132 years earlier. We warned (eg in video of 31 July [link]) that the most significant extreme events across the world this August would be around 15th/16th August - as part of 15th-19th RED WARNING - eg EuroMaps & Brit /Ire forecasts [link] and part of a general world shift in the Jet-stream. There were many very dramatic events in this period (see over) including massive deluges in St Peturburg 15th August starting the end of the heatwave [link] in a manner which closely matches our forecast - see Video by Nina Ridge [link] & [link]. There were also major deluges in France, across Europe and in SE England Channel 4 TV’s big brother house flooded on 18th Aug [link]. The dramatic penetration of the jet stream (grey bits) into West Russia on 16th-18th is clear in the jet stream flicker-movie [link] (archives)

Pakistan floods drop as forecast

“In Pakistan, as we warned, there were ‘last blast’ extra deluges around 15th which caused new floods – eg in Dadu-Moro [link] (click) and in next day or so then a general change to less deluges in Pakistan is following as the Low pressure in the Arabian sea filled {see 18th Aug Pressure map - [link] compared to situation around Aug 2nd [link] } and the whole world jet stream transforms to a new state as predicted by the Solar Lunar Action Technique.
Double sunspot eruption ⇒ Sudden Ionospheric Disturbance ⇒ Jet stream shifts ⇒ Russia heat & Pakistan superdeluges end

On the morning of 14th Aug a TWO sunspot solar flare (C4 class) erupted hurling plasma and X rays to Earth for two hours causing a simultaneous major SID - Sudden Ionospheric Disturbance (X rays travel Sun-Earth in 8 mins) and then the jet stream shifts and dramatic weather changes across the world as predicted. See http://www.youtube.com/watch?v=9M7x-IMj9d8 for video from http://spaceweather.com/archive.php?month=08&day=15&year=2010&view=view.

Apart from the dramatic changes in Europe, Russia and Pakistan there were other major weather events in the period 15-19th Aug associated with the predicted jet stream changes. - There were continuing huge deluges, massive floods and landslips in China – eg http://bbheavy rain c.in/cv9RDt 15th Aug

The landslide in Puladi, a settlement in Yunnan province, was the latest of a succession of natural disasters to have struck China this summer after torrential downpours unleashed floods and dislodged hillsides.

Accuweather reported major thunderstorms (+ tornado risk) in period 15-19th in USA Midwest, Gulf, Ohio, Central plains, Boston-Washington, Oklahoma, N Plains, Louisiana

Lighting downed a plane on San Andres island Colombia (in Gulf off Nicaragua) 16 Aug http://bit.ly/9ANEtJ

Candlestick makers rally against light-bulb threat

As the Satellitegate scandal breaks threatening to end forever the Climate hype religion and the world suffers from the failure of the Global Warmers and standard meteorology to predict disasters ‘Climate Scientists’ are having an exclusive meeting* in Boulder Colorado to shore-up their failing fraudulent world. * http://bit.ly/cZE40V

The meeting starts a new body - Ace, the Attribution of Climate-related Events comprising - US National Centre for Atmospheric Research (NCAR), the UK Met Office and the US National Oceanic and Atmospheric Administration (NOAA). This is an elitist US-UK operation claiming to “race to predict where natural disaster will strike next - stepping up the world’s efforts to establish an early warning system for extreme weather events caused by global warming.”

“We have not been invited” said Piers Corbyn “This is strange since we can predict extreme events and they can’t. If the US & UK authorities really want to predict extreme events to avert the effects of disasters why not involve those who can? Extreme weather events are not caused by the fictional non-science of global warming and the Climate hype industry has a ZERO success rate at actually predicting anything; so this body will get nowhere fast. Their purpose is not to help the world but to help themselves by making propaganda to shore up their failed science & fraudulent data. Would they care to have a long range forecast competition with us?”

For FULL FORECAST DETAILS / Purchase Weather Action forecasts please visit http://www.weatheraction.com/member.asp (NB USA & all Tropical storms are part of Extreme events Rest Of World option) GET Sept forecasts / trial forecasts now & web access also gives (rest of) Aug forecasts for Brit/ Ire or Euromaps world at no charge.
