

Bilderberg 'World-Unity' Lie Game is up!

WARMIST CO2 SCAM IS TOTALLY TRASHED

UN IPCC, Academic fraudsters, Greenpeace, top Insurers Swiss-Re, Nukes+BigOil, Media Brainwashers BBC NYT, challenged

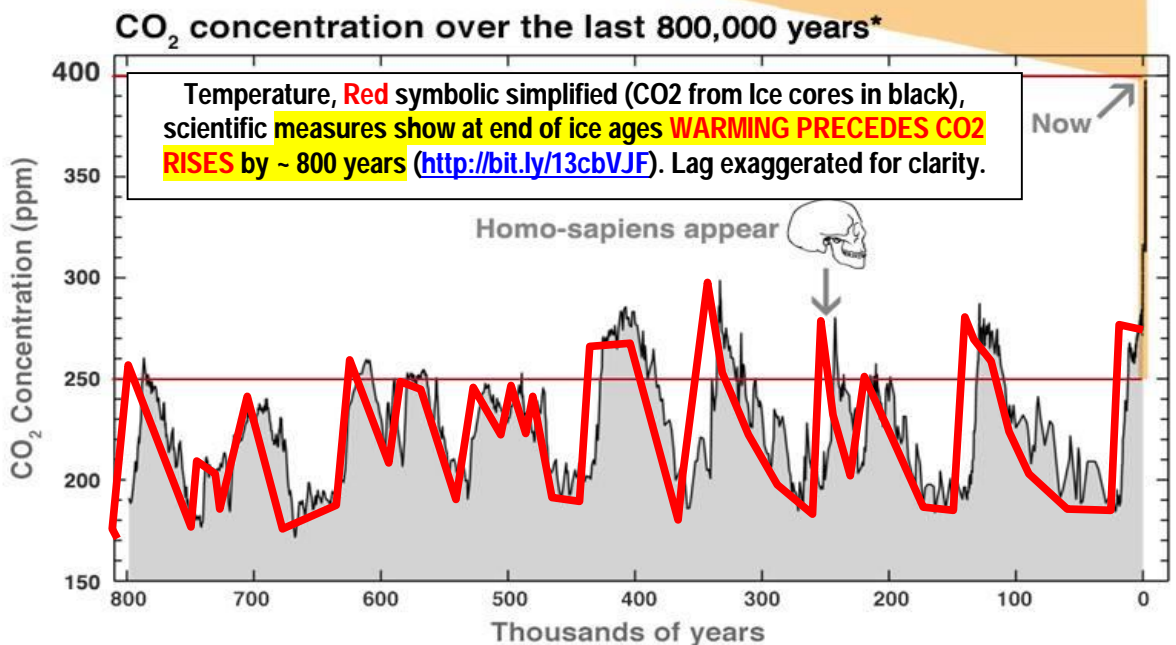

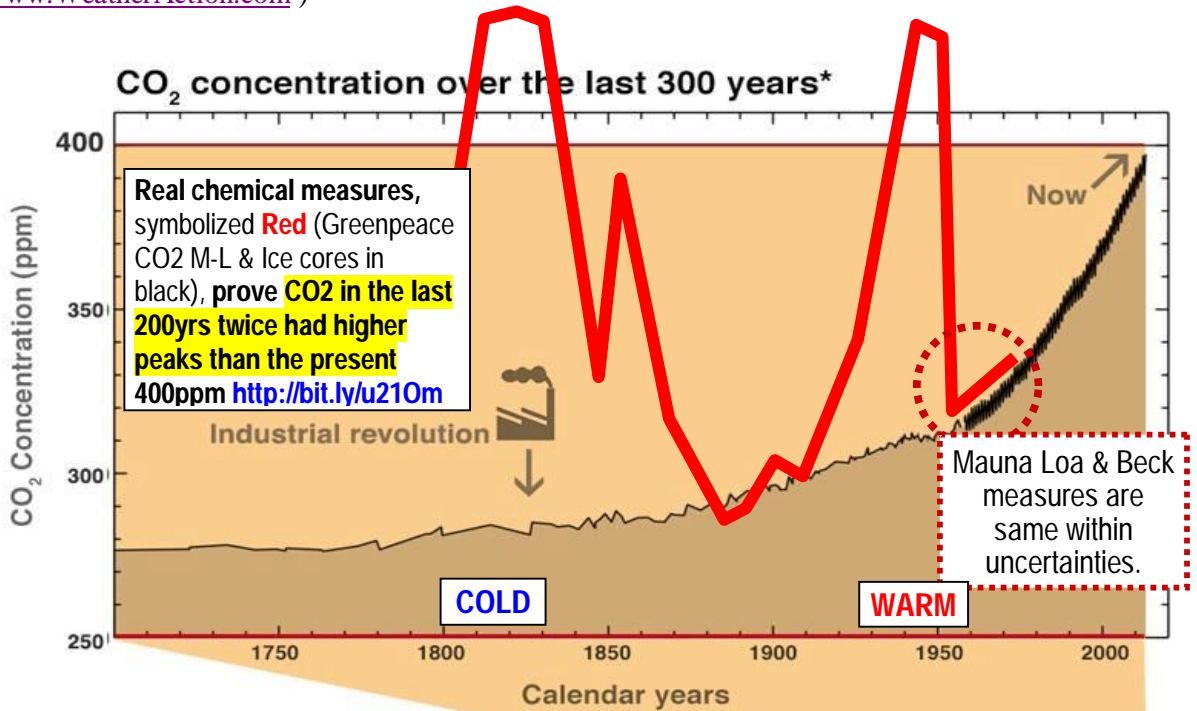

The Dutch-based commercial propaganda business, Greenpeace, went into 'unprecedented' delirium 10/11 May as 'Official' levels of the trace-gas CO₂ from the Mauna Loa active volcano site reached 0.04% (grandly termed 400ppm) pic.twitter.com/Yu403FMDDd . **WA13No19**

• Piers Corbyn challenged **Swiss Re, top Re-Insurers** for this spin at GAFTA, major world food trades conference Geneva 17May (Latest Comms www.WeatherAction.com)

Their key claims portrayed in dodgy spin graphs (black) are false and disproved by the scientific **FACTS** symbolically presented in **Red overlay graph** (Links & WA13No15 pdf).

1. The 0.04% level is not unprecedented but exceeded twice in the last 200 yrs –

around 1820 in the later 'Dalton' Mini Ice Age and ~1940s, a warm period. Greenpeace, whose profits depend on headline-grabbing propaganda falsify reality by using two different sets of measurements:- recent, from 1958, chemical methods and preceding; ice core methods which lose past CO₂ spikes due to its diffusion through ice. (Refs* Beck 2006, Jaworowski 2007). Scientific chemical measures, **Red**, are close to Mauna Loa and mostly well exceed prior ice-core flattened underestimates.

*Data from ice-cores until 1958 when records started at the Mauna Loa observatory in Hawaii

2. Historically **TEMPERATURE RISES LEAD CO2**. Warmist propaganda (black lower graph) confuses cause and effect by ignoring this fact which threatens to terminate much of their income and the Green surcharge scams of energy companies, governments, carbon-delusion business & banks.
