UN Climate IPCC Renamed "Panel for Science Denial"

"The latest Climate Alarmism (April 13) from the UN IPCC** marks a new low in Science Denialism and desecration of the scientific method so we are re-naming the UN Panel for Climate Change the **Panel for Science Denial, IPSD**", said Piers Corbyn

Their dire warning of world warming while it gets colder and their call for more switching to gas from coal – which is a bright Green Light to Russian militarism and gas-blackmail of the Eu; rest on two premises:-

1. That in the present real world increases in the trace gas CO₂ (0.04% of air) cause warming and climate change.
2. That even if this were true Man's only 4% contribution of total CO₂ 'greenhouse' gases dominates and nature's 96% conspires that all other CO₂ etc from termites (10x that of Man), volcanoes, rotting plants, cow-fart etc stay constant as a whole, leaving Man's 4% in charge.

BOTH propositions are deranged. All objective data measurements show CO₂ has no effect and indeed sea temperature over time controls CO₂ levels – the opposite of CO₂ warmist sect claims. The idea that the whole of nature's CO₂ stays constant while it has shown wild swings in the past - 2500 x Man's present input - is **insane**.

"If the Potsdam Institute which host the production of this deluded nonsense has a milligram of scientific integrity it must reject the scientific cretinism imposed on it by the UN's IPCC and German Govt, remove the responsible charlatan 'scientists' from its remit and refuse to give scientific credibility to Lies which was the role of science under a previous German Govt, that of Adolf Hitler.**

"There is now an historic choice for Science and policies across the world: Evidence-based Science Vs Creeping Eco-fascist science-denialist theft from the public for the CO₂ warmist project which slams up energy and food prices and is ruining the world economy.

WeatherAction Myth Buster - Redistribution encouraged
They Changed the FACTS!

Warmists have been fiddling ("selecting") data for years –

• systematically removing stations to make the data look colder in the past & warmer now

• BUT Whatever they do, even with 'new' data the WORLD IS COOLING while CO₂ still rises
