

**RTQ Red Weather, Thunder/Tornado risk & Quake-Volcanism trials**  
Forecast and News Actual Weather Events may be added to 'World Extreme events'  
Forecasts Results and news see [www.weatheraction.com](http://www.weatheraction.com)

# MAY 2014 - for R & QV See page 2 for RTQ Forecast data Table

Circulated 3 MAY reproducing R periods and values already released (& QV implied, see p2) in Br+lr 45d forecast of 14 APR forecast for MAY.

## UN Climate IPCC(SD) - Panel for Science Denial

This article is as in [pic.twitter.com/8vrHYbQNO5](http://pic.twitter.com/8vrHYbQNO5) = <http://www.weatheraction.com/docs/WANews14No11.pdf>

“The latest Climate Alarmism (April 13) from the UN IPCC\*\* marks a new low in Science Denialism and desecration of the scientific method so we are re-naming the UN Panel for Climate Change the **Panel for Science Denial, IPSD**”, said Piers Corbyn of WeatherAction.

Their dire warning of world warming while it gets colder and their call for more switching to gas from coal – which is a bright Green Light to Russian militarism and gas-blackmail of Europe; rest on two premises:-

1. That in the present real world increases in the trace gas CO2 (0.04% of air) cause warming and climate change.
2. That even if this were true Man’s only 4% contribution of total CO2/ ‘greenhouse’ gases dominates and nature’s 96% conspires that all other CO2 etc from termites (10x that of Man), volcanoes, rotting plants, cow-fart etc stay constant as a whole, leaving Man’s 4% in charge.

**BOTH propositions are deranged.** All objective data measurements show CO2 has no effect and indeed sea temperature over time controls CO2 levels – the opposite of CO2 warmist sect claims. The idea that the whole of nature’s CO2 stays constant while it has shown wild swings in the past - 2500 x Man’s present input - is **insane**.

### POTSDAM INSTITUTE CHALLENGED

“If the **Potsdam Institute** which host the production of this deluded nonsense has a milligram of scientific integrity it must reject the scientific cretinism imposed on it by the UN’s IPCC\*\* and German Govt, remove the responsible charlatan ‘scientists’ from its remit and refuse to give scientific credibility to Lies which was the role of science under a previous German Govt, that of Adolf Hitler. There is now an historic choice for Science and policies across the world: Evidence-based Science Vs Creeping Eco-fascist science-denialist theft from the public for the CO2 warmist project which slams up energy and food prices and is ruining the world economy.

\*\* Intergovernmental Panel for Climate Change – WorkingGroup III, support hosted by Potsdam Institute for Climate Impact Research, funded by German Govt. [http://www.ipcc.ch/pdf/ar5/pr\\_wg3/20140413\\_pr\\_pc\\_wg3\\_en.pdf](http://www.ipcc.ch/pdf/ar5/pr_wg3/20140413_pr_pc_wg3_en.pdf) IPCC Press Release: <http://www.bbc.co.uk/news/science-environment-27008352> BBC Science Denialist edict. <http://www.weatheraction.com/docs/WANews13No43.pdf> (Piers Corbyn Presentation to GAFTA (Grain & Feed Trades Assoc) Geneva May 2013; <http://bit.ly/1kRYuZB> WeatherAction Blog.

WeatherAction Myth Buster - Redistribution encouraged

They Changed the FACTS!

**Warmists have been fiddling ("selecting") data for years -**

- systematically removing stations to make the data look colder in the past & warmer now
- BUT Whatever they do, even with 'new' data the WORLD IS COOLING while CO2 still rises

## More Tornado swarms in Mini-Ice-Age warns Piers

“It has been noted that contrary to the baseless alarmist claims of CO2warmist ScienceDeniers the number of intense tornadoes in USA has fallen over recent decades so a fair question must be what will happen to tornado and severe thunderstorm / storms frequency in the developing Mini-Ice-Age - the reality of which is shown by WeatherAction’s continued confirmed forecasts. I suggest (points I have mostly made before):-

1. **Very extreme temperate zone storms** will become more frequent as we go further into MIA. Historically the biggest storms (eg The Tempest of 1703) occurred during LIA-MIA periods or at their boundaries. NB CO2Warmists claim warm=> storms has no observed basis in reality, they just made it up.
2. **Very extreme thunder, hail and probably extreme tornadoes**, will also increase in frequency. The thunder and extreme hail increase is observed fact in MIAs.
3. Tornado data is insufficient in the past to judge fully what happened in MIAs but more would follow from thunder and hail events. The under-rated **electrical nature** (see my Electric Universe Presentation) of many weather extremes and the electrical contrasty nature of MIAs also suggest this. See <http://bit.ly/1u3l9Z2>
