

BBC – World on course for warmest Year (2014)

This year is in the running to be the hottest globally and for the UK since records began, early estimates show.....

<http://www.bbc.co.uk/news/science-environment-30311816>

The amount of sea ice on Earth continues to soar to record highs

<https://twitter.com/SteveSGoddard/status/550805152249417728>

These two reports cannot both be true!

WHO IS LYING?

• **FACT: The UK MetOffice, USA (eg ncdc), and other Official bodies around the world regularly ‘ADJUST’ temperature data upwards.**

• 30% of USA data is **fabricated** – ie not actual measurements but (computer) estimates of what might have been at (eg) missing rural stations based on other stations. ‘Adjustments’ upwards are proportional to CO2 Levels! LOL!

• **REAL MEASUREMENTS USA show no warming over 90 years and 2013/14 two of the COLDEST on record**

SEE: www.WeatherAction.com <http://stevenogoddard.wordpress.com/2015/01/05/ncdc-breaks-their-own-record-for-data-tampering-in-2014/>

The only records broken in 2014 were for DATA TAMPERING!

BBC must Accept Climate Truth!

- Drop CO2 Global Warming Religion!

We call for a public enquiry into (world-wide)
Temperature data ‘Adjustments’ & Fraud

This event is called by <http://truthexcites.com>, @truthexcites, www.WeatherAction.com 02079399946 / 07958713320 and many ClimateRealist & RepealClimateAct campaigners: Other links: #RepealClimateAct, #AccountabilityNow, #NHSWinter #ClimateTruth <https://twitter.com/ClimateRealists> <https://www.facebook.com/groups/fayrepealtheclimatechangeact>

#NHSWinter Crisis Hits

• Snow, blizzards, and icy blasts (espec North UK) during much of December as warned by WeatherAction 100day ahead made this NHS winter crisis worse.

• **WeatherAction warned that BBC-MetOffice failure to warn of cold blasts, snow and blizzards to come in parts of December even 30days ahead was short-changing the NHS; the NHS winter fund top-up was too low WeatherAction warned.**

• BBC ignored WeatherAction - putting their CO2 deluded religion before NHS & public well being.
