

## ExtinctionRebellion is FakeProtest

ExtinctionRebellion (#XR) is nothing to do with "Saving-The-Planet". It's a desperate ignorant #FakeProtest attempt to save the Man-made CO2-GlobalWarming failing hoax +related UN-EU Globalist Energy price hikes & "sustainability" diktats in the interests of #BigOil & #Agenda21 #SocialCleansing-for-expensive homes property Speculation-Developers.

- Real Science shows there is NO EVIDENCE FOR Man-made CO2 Global-Warming ONLY EVIDENCE AGAINST.
- In 12 years time (the deluded #XR extinction warning period) the real world will be very cold - in a MiniIceAge not 'Runaway warming'.
- XR activists should REBEL (#XRR) against their Globalist masters and instead take action against high energy charges (follow the French lead!), fuel poverty & Social-Cleansing.

## Exxon-Mobil oligarchs, 5G Globalists, ExtinctionRebellion ARE ALL IN IT TOGETHER

- Gail Bradbrook, one of, if not the main organiser of #ExtinctionRebellion (#XR) is a former director, and now in charge of programme development at CitizensOnline, where she is as a "a digital inclusion strategy specialist, consulting with a wide range of clients such as EE, London Connects and the Cabinet Office." <https://www.citizenonline.org.uk/meet-the-team/>
  - The Board of Directors of CitizensOnline also contains a former head of Exxon Mobil... as well as Lord Anthony Tudor St John, ex senior consultant to Merrill-Lynch and Legal Counsel for Shell, who's heavily invested the satellite and aerospace industries which will be involved in the roll-out world-wide of dangerous, damaging 5G coverage. See [https://windowsontheworld.net/video\\_type/globalist-fake-revolution/](https://windowsontheworld.net/video_type/globalist-fake-revolution/)
  - Oil-barons\*\*, plutocrats, financial oligarchs, The Govt & Lords of the realm back #XR law-breaking to promote #GlobalWarming #FakeScience! The 'Climate Change' policies Extinction Rebellion push for - Agenda21/ 2030 - ARE the survival strategies of the oligarchs in the 'sustainable' future they've planned for us:- Crazy priced housing & #SocialCleansing for smart-grid compact Cities; Dangerous 5G connected to everything, monitoring & controlling us, much of the land becoming 'eco-reserve'/ no-go-zones. ## BBC, Al Gore and UN challenged to debate and provide real data evidence of CO2 Climate story

The latest UN-IPCC climate alarm – which #ExtinctionRebellion was set-up to get alarmed about - is intended to cover-up their #FakeScience but is now met with scientists' 6point challenge - with response deadline Dec 14 =>

### 1. The CO2 story is a new WMD

"This is the most deluded, desperate, dishonest & fraudulent ever warning of Climate Doom to emanate from the UN; equal only in dishonesty and false-alarmism to their infamous WMD (Weapons of Mass Destruction) Report which led to the Iraq war. The BBCTV+Radio4 (with ITV + SkyNews following) explicit avoidance of balance on this issue is a disgraceful attack on freedom of expression + their duty to provide balance. The reason for scrapping debate is they know the Climate-Alarm story is falsity. **They're scared of debate.**

### 2. ADMIT the CO2 story is false or provide real data rebuttal by Dec14

"There is no scientific peer-reviewed paper in existence which shows - using real data in the last 100, 1000, or 10,000 years - that CO2 level rises drive temperature rises and we challenge IPCC, Al Gore and the BBC to provide such (by Dec 14 deadline, the end of COP24). The observed facts are CO2 levels are AN EFFECT NOT A CAUSE of Climate (Temps) and the CO2 warming 'theory' violates basic Laws of physics (slides 20-29 <http://bit.ly/2QAeDsr>)"

- Antarctic temperatures recently plunged close to the coldest possible on Earth! @Wattsupwiththat. There are now dangerously too many polar bears in many places – so-called "Global-Warming" has NOT reduced them.

### 3. The #ClimateGate scandal lives on – a disgrace to science

"Real data (satellite measurements) show world temperatures are now falling under satellite measurements and that current reported rises in surface temperatures depend on politically motivated fraudulent 'adjustments' and 'selection' of actual data. These 'adjustments' are a continuation of the **data fraud exposed in the Climate-Gate Scandal** ~2009 at the Climate-Research-Unit (CRU) of the University Of East Anglia, see [www.WeatherAction.com](http://www.WeatherAction.com) and <https://www.lavoisier.com.au/articles/greenhouse-science/climate-change/climategate-emails.pdf>  
The very warm summer spell 2018 in Britain Ireland and N/W Europe was mis-represented by BBC and warmist propaganda organs as a world / North-Hemisphere heatwave. Yet much of Russia, Australia and South America were then extremely cold and **N Hemisphere average land temperature on eg July 30th 2018 was in fact 0.2C BELOW normal.**

### 4. The Global-Warming Hoax is driving #GreenGenocide

"Policy makers should note the recent **World Health Organisation** report from another branch of the UN. It states **many millions died of fuel and energy poverty related causes last year.** A high proportion of these die every year because of energy price rises and scarcities imposed by 'Climate Change' policies. **The UN want to continue this 'Green-Genocide'.** We must end it and demand energy at COST not vast profits & taxes for #BigOil, climate data fraudsters & governments". **HUGE petrol price protests against UN-EU Climate policy in France (under-reported on BBC!) show the way!**

### 5. The #GlobalWarming story is a political operation - NOT about science or environment - admits UN chief

"UN Climate policy is FakeScience & fraud and entirely **political** - not scientific or environmental in its purpose; **a fact they admit.** In Nov 2010 Ottmar Edenhofer Co-chair of UN-IPCC Working Group 3 said (link in Presentation <http://bit.ly/2QAeDsr>): *'One must say clearly that we redistribute de-facto the world's wealth by climate policy...One has to free oneself from the illusion that international climate policy is environmental policy. This has almost nothing to do with environmental policy anymore'*.

"The UN 'climate' objective is, they claim, some sort of wealth redistribution on the back of climate alarm. What we actually have on the back of this climate fraud which enables deluded people to believe they are 'saving the planet' is the opposite. **We have massive theft by Wall-Street super Corporations, BigOil and ('green') subsidy entrepreneurs' (eg Elon Musk) to support massive insane #FakeGreen projects - wind farms, damming the Amazon, destruction of Usa forests for UK Drax power station polluting wood-chips & so on; alongside massive job destruction in USA, UK & Europe, liquidation of the middle-classes & impoverishment + super-exploitation of lowest income groups worldwide.**

### 6. CO2 is #TheGasOfLife - The world needs more not less

CO2 fertilization Greening Earth – NASA <https://www.nasa.gov/feature/goddard/.../carbon-dioxide-fertilization-greening-earth>  
26 Apr 2016 - From a quarter to half of Earth's vegetated lands has shown significant **greening** over the last 35 years largely due to rising levels of atmospheric carbon dioxide, according to a new study published in Nature Climate Change April 25.

### Public MEETING Thurs 20\* Dec - What's wrong with the CO2 story:

- **The Science & what have BBC, UN & Al-Gore got to hide** (any responses to Dec14 deadline), \*venue & definite date via contacts below.

### Royal Institution suppresses scientific debate

The 20 Dec meeting was to be held at The Royal Institution in "Christmas Lecture style" with physics demonstrations but they cancelled us out claiming the meeting was against their "principles"! **Michael Faraday is turning in his grave!**
